

About **Sweet Dreams**

In 2001, Sweet Dreams was established with a simple goal of assisting families within our community. Sweet Dreams is comprised of many talented men and women with a heart to serve others. Our joy is to turn a house into a warm, welcoming, and functional home. Sweet Dreams holds an idea that when a family gathers inside a home, amazing things can happen. On occasion, however, the house needs a little help turning into a “home.” This is where the talented members of Sweet Dreams shine.

You might find any given member of the Sweet Dreams team adding a fresh coat of paint to brighten a room or adding toys to a child’s toy chest. Organization is our specialty and there is no dust moth safe from our cleaning crew. We hope to add new furniture to an empty room or simply rearranging existing furniture to create a functional space. We also make a point of gifting families by assisting them with practical needs. We hope to make sure that there are clothes in the closet, food in the cabinets, and those toy chests are left brimming full.

While the house turns into a home, the families and their individual unique needs are the focus of Sweet Dreams. Our families usually come to our attention through “word of mouth” and we seek to focus our attentions within our community. The Sweet Dreams team volunteers their time and talents to assist these families. Outside donations, which are all tax deductible, are also welcome as it is the big and small contributions that help to turn a house into a thriving family home.
